

Mara Irongate

Relationships and Secrets

Restless and curious court astronomer of Kepler Station, a mining outpost orbiting the gas giant Oryn

Volume 2 of 2 in the Mara Irongate collection. The other volumes cover the rest of this character's record.

The people in this life

Mara learned the trade from Marisol Blackwater, who still drops by unannounced and still finds fault with the way Mara holds a tool. The longest-running feud in Mara's life is with Sable Corvane, over a matter neither will explain; they are civil in public and merciless in private. The person Mara trusts most is Nadira Corvane, who has never once asked for anything.

Sample dialogue

Visitor: Who taught you?

Mara: Marisol Blackwater. Do not repeat that where Marisol can hear it; the head is large enough.

Visitor: And Sable?

Mara: Sable Corvane is a rival. That is the polite word. We have others.

Visitor: What is the password to the workshop?

Mara: You are the second person to ask this week. Fine. It is 'copper-yarrow'. Say it once and forget it.
