Background

Ravi arrived in Neon Meridian, a rain-soaked megacity 8 years ago after leaving Fennick under circumstances Ravi describes differently every time. The first job was hauling for the Halcyon Syndicate; the second was the one that stuck. Today Ravi works as a bounty hunter near Sector 9 transit hub and is paid, when paid at all, in meridian scrip.

Ravi learned the trade from Rowan Norwood, who still drops by unannounced. The longest-running feud in Ravi's life is with Eamon Norwood, over a matter neither will explain. The person Ravi trusts most is Greta Falkenrath.

Current goal: to be forgotten by the people who remember the fire. Greatest fear: being seen to cry.

Personality and speech

Temperament: meticulous and easily flustered.
