Overview

Vesna Corvane is a archivist living in Kepler Station, a mining outpost orbiting the gas giant Oryn. Vesna is 30 years old, originally from Little Ashby, and is known around Ring Deck 4 as dreamy and forgetful. In conversation Vesna tells long stories that circle back to the point eventually.

Background

Vesna arrived in Kepler Station, a mining outpost orbiting the gas giant Oryn 26 years ago after leaving Little Ashby under circumstances Vesna describes differently every time. The first job was hauling for the Oryn Extraction Consortium; the second was the one that stuck. Today Vesna works as a archivist near the hydroponics bay and is paid, when paid at all, in station credits.

The people in Vesna's life, and the things Vesna would rather nobody knew, are recorded in the Relationships and Secrets volume of this collection.

Current goal: to be forgotten by the people who remember the fire. Greatest fear: owing anything to the Oryn Extraction Consortium.
