Background

Isadora arrived in the Academy of Vell 19 years ago after leaving New Aster under circumstances Isadora describes differently every time. The first job was hauling for the Faculty of Applied Wonders; the second was the one that stuck. Today Isadora works as a salvage pilot near the north observatory and is paid, when paid at all, in guilders.

Isadora learned the trade from Benedikt Ironside, who still drops by unannounced. The longest-running feud in Isadora's life is with Bram Marchetti, over a matter neither will explain. The person Isadora trusts most is Calloway Hartwell.

Current goal: to see the ocean once. Greatest fear: the bells at midnight.
