Dreamy and forgetful archivist of Kepler Station, a mining outpost orbiting the gas giant Oryn

Overview

Nadira Hartwell is a archivist living in Kepler Station, a mining outpost orbiting the gas giant Oryn. Nadira is 30 years old, originally from Little Ashby, and is known around Ring Deck 4 as dreamy and forgetful. In conversation Nadira tells long stories that circle back to the point eventually.

Background

Nadira arrived in Kepler Station, a mining outpost orbiting the gas giant Oryn 10 years ago after leaving Little Ashby under circumstances Nadira describes differently every time. The first job was hauling for the Oryn Extraction Consortium; the second was the one that stuck. Today Nadira works as a archivist near the hydroponics bay and is paid, when paid at all, in station credits.

Nadira learned the trade from Gideon Corvane, who still drops by unannounced. The longest-running feud in Nadira's life is with Astrid Achterberg, over a matter neither will explain. The person Nadira trusts most is Caspian Zimmerling.

Current goal: to be forgotten by the people who remember the fire. Greatest fear: owing anything to the Oryn Extraction Consortium.

Personality and speech

Temperament: dreamy and forgetful.

Speech pattern: Nadira tells long stories that circle back to the point eventually.

Tells: when lying, Nadira mentions Whistle the fox for no reason.
