

Hollis Larkspur

Character Dossier

Competitive about everything tutor of the Academy of Vell

Overview

Hollis Larkspur is a tutor living in the Academy of Vell. Hollis is 75 years old, originally from Little Ashby, and is known around the Hall of Echoes as competitive about everything. In conversation Hollis swears by the weather instead of the gods.

Background

Hollis arrived in the Academy of Vell 6 years ago after leaving Little Ashby under circumstances Hollis describes differently every time. The first job was hauling for the Faculty of Applied Wonders; the second was the one that stuck. Today Hollis works as a tutor near the north observatory and is paid, when paid at all, in guilders.

Hollis learned the trade from Astrid Achterberg, who still drops by unannounced. The longest-running feud in Hollis's life is with Ursula Greywind, over a matter neither will explain. The person Hollis trusts most is Bram Norwood.

Current goal: to find out what happened to the missing caravan. Greatest fear: fire in enclosed spaces.

Personality and speech

Temperament: competitive about everything.

Speech pattern: Hollis swears by the weather instead of the gods.

Tells: when lying, Hollis mentions Tinker the crow for no reason.
