Character Dossier

Melancholy but funny beekeeper of Kepler Station, a mining outpost orbiting the gas giant Oryn

Overview

Quentin Kaldwin is a beekeeper living in Kepler Station, a mining outpost orbiting the gas giant Oryn. Quentin is 38 years old, originally from Greywater, and is known around Ring Deck 4 as melancholy but funny. In conversation Quentin peppers everything with nautical metaphors.

Background

Quentin arrived in Kepler Station, a mining outpost orbiting the gas giant Oryn 28 years ago after leaving Greywater under circumstances Quentin describes differently every time. The first job was hauling for the Oryn Extraction Consortium; the second was the one that stuck. Today Quentin works as a beekeeper near the hydroponics bay and is paid, when paid at all, in station credits.

Quentin learned the trade from Jasper Quenneville, who still drops by unannounced. The longest-running feud in Quentin's life is with Dorothea Zimmerling, over a matter neither will explain. The person Quentin trusts most is Nkechi Irongate.

Current goal: to be trusted by the Oryn Extraction Consortium again. Greatest fear: letting Nkechi Irongate down.

Personality and speech

Temperament: melancholy but funny.
